Course Instructor:
Felix Lorenzo, MPH, CPH
PhD Candidate
Office: 4176 HPNP
Email: florenzo001@php.ufl.edu

Contact: The best way to contact me is through the email address listed above. However, if you use the email feature via Canvas be sure to allow around 24 hours for a response. Please contact the course instructor *first* with any course or lecture related questions. For any website or other technical issues please post your comment in the Technical Difficulties Discussion Board.

Office Hours: By Appointment, Skype, or Telephone. For those of you on campus, in-person meetings are also available.

Course Overview

This course is designed to provide students with the knowledge, skills, and methods for conducting community health assessments to identify factors that affect the health of a population.

Course Objectives

By the end of the course students should be able to:

1. Create a comprehensive plan for conducting a community assessment.
2. Develop partnerships with community members, organizations, and stakeholders.
3. Determine appropriate assessment methods.
4. Develop instruments for data collection, both quantitative and qualitative.
5. Report findings from an assessment.
6. Communicate findings to stakeholders.

Online Learning Environment

In order to be successful in an online course it is essential that students become familiar with the course outline, syllabus, and assignments. Since we do not meet weekly, it is the sole responsibility of the student to keep up with course requirements. To assist with this process you are assigned a syllabus/academic integrity quiz. If you do not get a perfect score; I highly recommend you review your responses and email the instructor with any specific questions or concerns.

Academic Integrity: Each student is bound by the academic honesty guidelines of the University that state: “The students of the University of Florida recognize that academic honesty and integrity are fundamental values of the university community. Students who enroll at the university commit to holding themselves and their peers to the high standard of honor required by the honor code. Any individual who becomes aware of a violation of the honor code is bound by honor to take corrective action. The quality of a University of Florida education is dependent upon community acceptance and enforcement of the honor code.”

And, each student, upon submission of an assignment, implies the pledge:

"On my honor, I have neither given nor received unauthorized aid in doing this assignment."

Late Assignments Policy:

- Assignments turned in up to 24 hours late will be accepted but the assignment grade will be reduced by 10% of the grade you would have received.
- Assignments turned in more than 24 hours late will not be graded and will contribute zero points toward your final grade.
- Special Circumstances: In the event of exceptional situations that may interfere with your ability to perform an assignment or meet a deadline, contact the instructor as soon in advance of the deadline as possible. Such special cases will be dealt on an individual basis, provided that you have sufficient documentation.
- Assignments turned in at 11:55:01 PM are LATE. This is how the Canvas programming works. Do not wait until 11:54 PM to submit an assignment unless you understand that the assignment may be marked late. See Notes on Turnitin® for time needed to submit an assignment.
- It is the responsibility of the student to verify not only that an assignment was submitted, but that an attachment was made, and it was the correct attachment, and in the correct file format.

Turn It In:

The Turnitin® feature in Canvas will rate student writing assignments on their originality compared to other published books, journals, websites and other student paper submissions. This course will use the results of the Turnitin® report to assist in grading

the originality of the assignment. Generally, an originality report of $\geq 20\%$ is cause for concern.

Plan Ahead: Turnitin® reports take about 30-minutes to generate. Therefore, students should check back after their submission for an originality score on their submission. If a student receives an unfavorable report they should rewrite and re-submit. Students can re-submit unlimited times before the deadline. (Another great reason not to wait until the last minute to submit☺). If a report is not generated within 2-3 hours, students should re-submit their assignment.

****Note about using Internet Explorer:** Turnitin® is not operational in IE8, so it is suggested to use an alternative web browser that supports HTML5 (e.g. Firefox, Chrome, Safari, or IE10 or higher). It is the student's responsibility to make sure they are using the right browser and to make adequate arrangements to address technical issues as they arise.

I recommend that you allow for sufficient time to submit the assignment. Students should keep their email receipt, generated by Canvas, when submitting an assignment. You may submit this email if an assignment is denoted "late" when it was actually submitted prior to the deadline.

ProctorU:

This course will be using ProctorU, a proctoring service for graded exams. This service is a user-friendly system, but you must follow these guidelines to register and take your exams:

1. Students must register for a time slot for their course exams with ProctorU starting the second week of the semester, but no later than 3 days prior to an exam. You will register for your exams at www.proctoru.com. Their website will describe how you register and log on for your exam. Your exams will be taken on the Canvas course platform, but only ProctorU will be able to open the exam for you. Please test your computer connection and equipment via the ProctorU website prior to your exam.
2. Exams will be administered 8:00AM – midnight (Eastern Time), seven days a week.
3. Students will need to have a microphone and webcam in place during the test-taking period. An inexpensive webcam and microphone should work fine. Students will NOT be allowed to take an exam without a webcam. (Note: *a microphone and webcam are program requirements for the online MPH program, see computer requirements on the program website*)
4. Exams may be taken at a student's home. Students must plan to take their exams in an environment where other people are not in the room during the exam. The proctor will ask to see 2 forms of ID, will ask you some questions to identify yourself, will test your microphone and camera, will ask you to pan your desk and clear it of anything not allowed during the exam.
5. Students will need to have some administrative rights on the computer they are using for the exam to enable the proctoring service to function. Please plan on an

- extra hour of time to complete the exam outside the scheduled exam time to accommodate connection time with the proctor and any technical issues that arise.
6. The program will pay your proctoring fees, but students will be responsible for late registration fees. For exams scheduled less than 3 days before an exam, they will charge a \$5 late fee.
 7. It is recommended that students not use a wireless Internet connection for exams. Please consider a wire connecting your wireless laptop to your modem for a more reliable Internet signal during the exam. Inexpensive modem cables are available in most electronic stores and online.

Students with Disabilities:

The College and the course instructor are committed to providing reasonable accommodations to assist students' coursework. To obtain academic accommodations, first register with the Dean of Students' Office. The Dean of Students' Office will provide documentation to be given to the course instructor at the time you request the accommodation.

Counseling and Student Health

- Students may occasionally have personal issues that arise in the course of pursuing higher education or that may interfere with their academic performance. If you find yourself facing problems affecting your coursework, you are encouraged to talk with an instructor and to seek confidential assistance at the UF Counseling & Wellness Center, 352-392-1575. Visit their web site for more information: <http://www.counseling.ufl.edu/>.
- They are located on campus at 3190 Radio Road and are open from 8 am to 5 pm Monday through Friday. You can also get emergency walk-in crisis stabilization at the Counseling and Wellness Center's (CERC) on-campus "Crisis and Emergency Response Center" in Peabody Hall.
- The Student Health Care Center at Shands is a satellite clinic of the main Student Health Care Center located on Fletcher Drive on campus. Student Health at Shands offers a variety of clinical services, including primary care, women's health care, immunizations, and pharmacy services. The clinic is located on the second floor of the Dental Tower in the Health Science Center. For more information, contact the clinic at 352-294-5700 or check out the web site at: <http://shcc.ufl.edu/>
- Crisis intervention is always available 24/7 from: Alachua County Crisis Center, (352) 264-6789
<http://www.alachuacounty.us/DEPTS/CSS/CRISISCENTER/Pages/CrisisCenter.aspx>

BUT – Do not wait until you reach a crisis to come in and talk with us. We have helped many students through stressful situations impacting their academic performance. **You are not alone so please don't be afraid to ask for assistance.**
