[†] 42-credit concentration requires previous completion of a terminal health-related degree.

48-Credit Program

Students must take all of the public health core courses (section I); select 9 courses, 27 credits, from the concentration credits (section II); and the internship course (section III). Concentration courses may be added as they become available.

42-credit Accelerated Program

Students qualified for the 42-credit accelerated program must take all of the public health core courses (section I); choose 7 courses, 21 credits, from Section II - Concentration Credits following the concentration guidelines.

This is the current curriculum for the academic year 2015-2016. The college will make every effort to offer the courses as listed, but the college may need to substitute courses due to unforeseen changes in the coming year, such as faculty changes, etc.
